Prescription Department.
A Remarkable Record.

We have filled about 600,000 five hundred thousand prescriptions. We doubt if there are over 10 stores in the United States that can equal this record.

It is hard to grasp such a figure, and so illustration may help you.

We estimate that if there were all to be blind for one morning it would be like a day, it would take him 50 years to complete the task. These prescriptions have been filled for 50 years, while the

adds to the significance of the record.

Our prescriptions are filed and bound with heavy covers, and the entire record is kept in a safe. In the 200,000 can be referred to instantly, our enormous record (which has been attracting notice for the race excellence of the service we have always given.

True, we fill prescriptions at fair prices and save our customers money, but we do not care to do so, for this would prove no inducement whatever if confidence in our service were not the result. We do not dilute at cost in such matters. What they ask is accuracy and reliability, and they are sure of these here.

Under no circumstances is the evil of substitution permitted.
